

Moving out routine

How to terminate your contract for your apartment

When you want to move out from your apartment you just have to e-mail us at Robutz and then the date for moving out is 3 months from the first of next coming month.

For example, if you tell us you want to move out the 5th of June, it will be counted from the 1st of July and therefore you will move out the last date of September (30th), which is 3 months from the 1st of July.

Cleaning

You will have to do a move out-cleaning of your apartment before moving out. If you do not know exactly what that means, you can either search for a list online or hire someone who cleans it for you.

Some things that the cleaning has to include are cleaning behind the stove, in the oven, the windows, cabinets, drawers, floor drain and also clean and defrost the fridge and freezer.

If you haven't made a proper cleaning, you will be charged for this.

Restoration of the apartment

If you have drilled or nailed in the walls, you have to restore that by first putty the holes and then paint them over.

Inspection of your apartment will happen after you have moved out and if you haven't restored your apartment to the condition it was when you moved in, you will be charged for this.

Returning of keys

You have to leave your keys in your own mailbox, the latest time to do this is the day your contract expires at 23.59.
